THE NATIONAL ELECTION. The Louisiana Returning Board met n regular session on the 23d. The counsel for the Democratic candidates submitted a statement, representing that they were informed and believed that many of the returns not presented were in the city of New Orleans, in the hands of the Republican Supervisors and canlidates for Congress, and in proof thereof filed affidavits relative to the parishes of Ouachita, Lafayette, East Baton Rouge, Red River, Franklin and others; therefore he moved that the Supervisors or other persons holding said returns be ordered to produce them forthwith. The Secretary of the board was ordered to issue the order. The returns of three parishes were completed. At one poll in Natchitoches the board threw out 542 votes for three Republican electors, and 173 votes for three Democratic electors, on account of Informalities. In Iberia five Repubican electors received only 1,848 votes instead of 2,297, owing to the omission of names on the ballot. At the meeting of the Louisiana Returning Board a committee of newspaper correspondents now in New Orleans ap-

peared and asked that they be admitted to the daily sessions of the board. The board refused to entertain the request, giving as a reason that special correspondents had reflected upon the board in their dispatches. The counting of the returns was resumed, but only one parish was finished. Counselfor the ocratic candidates stated that the tabulation of all other votes than those for Governor and electors was turned over to a corps of clerks, to be done outside the presence of the board; that all said clerks are Republicans, and the opposing candidates have no check upon them and no means to detect errors or correct frauds, if any existed; therefore order in his case until the 27th to they asked to be permitted to name three respectable persons, to be present when the votes are tabulated, and inspect the same and compare it with the re-
